**Saturday Evening, May 6**

ALUMNI BANQUET Wertz Student Center  
*(College Dining Room)*

PRESENTATION OF OUTSTANDING ALUMNUS AWARD

ANNUAL CHOIR CONCERT Clarke Memorial Chapel

**BEQUESTS RECEIVED**

Recently the College has received several bequests totaling \$31,979.

Mrs. Eva Rupert McKelvey '97, of Montoursville, bequeathed \$1,000 — The interest from which is to be used annually to help a worthy Christian girl attain her goal.

Dr. George S. Klump, a long time Williamsport friend of the College, left an unrestricted gift of \$5,000 in his will.

A provision in the will of Mrs. J. Howard Ake, of Berwick, provided \$6,809 to be used for library acquisitions over and beyond the current operating budget. The gift is a memorial to her late husband, Dr. J. Howard Ake, a former pastor of Pine Street United Methodist Church.

Mrs. Blanche Sprague Olmsted, of Mt. Lebanon, bequeathed the College a \$19,170 unrestricted gift.

**STUDENTS NEED HELP OF ALUMNI AND FRIENDS TO FIND SCARCE SUMMER JOBS**

On April 29th hundreds of Lycoming students will begin their search for summer employment. To many, the ability to secure a summer job will play a major role in being financially able to continue at Lycoming in September.

Can you assist a Lycoming student in this endeavor? Are you aware of summer job opportunities in your company or community? Do you know friends who are in need of summer help? If your answers to these questions are YES, contact Thomas C. Devlin, Career Development Center, at the College. By making known the specifics of the summer position(s) to Mr. Devlin, he will be able to relay the information to the students. A little help on your part can mean very much to a student.

## FACULTY WIVES ESTABLISH SCHOLARSHIP

A scholarship fund of \$5,000 has been established by the Lycoming College Faculty Wives with income from the fund to be awarded annually to a full-time female student of Lycoming.

A check establishing the scholarship fund was recently presented to Oliver E. Harris, director of development by Mrs. K. Bruce Shorline, president of Faculty Wives. The principal will be invested and earnings from the investment will be awarded annually to a student chosen by a committee. The award will be made for the first time during the 1972-73 academic year.

The recipient of the annual scholarship award will be determined by a committee of four comprised of the Faculty Wives president, a female member of the faculty, and a representative each from the office of student services and financial aid offices.

The award will be based primarily on academic

standing and financial need. Criteria for awarding the scholarship was established by a committee of faculty wives comprised of Mrs. David G. Busby, Mrs. James R. Jose, Mrs. Glen E. Morgan, Mrs. B. Andrew Laidy, and Mrs. W. Arthur Faus using opinions expressed in a poll of the members as their guide.

The \$5,000 represents successful attainment of a goal set by the faculty wives almost ten years ago when the group approved a project to raise that amount for a scholarship fund. During that time the members have devoted many hours to special fund raising projects. And their efforts were rewarded during the past year when they reached the goal.

During the decade needed to achieve the goal, the group worked long hours conducting rummage sales, bake sales, card parties, barbecues, and selling notepaper. In addition, other funds were received as memorial gifts and through personal contributions.

## LONDON Memorial Day Holiday

Mrs. K. Bruce Shorline, president of the Faculty Wives, presents a \$5,000 check to Oliver E. Harris, director of development, to establish an annual scholarship for female students. Mrs. W. Arthur Faus, president of the Faculty Wives, when the scholarship project was initiated, looks on.

# HE CAME HOME AS THE BARBER *By* PROFESSOR WALTER G. McIVER

Thursday evening, March 23, was a particularly happy evening for the Lycoming community. The Turnau Opera Players presented "The Barber of Seville." In Giacchino Puccini as a part of the Concert Series. The audience loved it!

Much could have been said about that opera. It is a masterpiece of style. It contains some of the world's truly enchanting music. It presents outstanding opportunities for characterization. All that and more could have appeared as part of the program notes and in double Professors Sheffer and Bussell did provide their classes with pertinent pre-performance information.

However, the big "kick" of the hilarious evening which brought us in absolutely zany Barber, was the homecoming of James Poulhott, 60 in the role of Figaro. The very generous applause that Jim received after the closing curtain demonstrated the audience's appreciation for his singing and for his acting.

After graduation from Williamsport High School, Mr. Poulhott came to Lycoming in the fall of 1956 as a music major. He was accepted into the touring choir immediately and toured in England with the Lycoming Singers during the summer of 1957.

At Ohio-Bethel in Carlisle, Poulhott demonstrated considerable flair for the theater. Subsequently he performed in several plays: "The Warlock Boy," "The Importance of Being Earnest," and "Moby-Dick," among them.

Jim graduated from Lycoming in 1960 but he returned in the fall to complete the education.

courses required to certify him for teaching at the secondary level. He taught English, French, and dramatics at Williamsport High School from 1961 to 1963. His summers were used for summer stock in North Carolina and at Chautauqua, New York.

At Chautauqua he sang in the chorus of the Opera Theater and performed occasionally with the Cleveland Repertory Theater which was located in Chautauqua. There he studied voice with Josephine Antonio who was helpful in getting James admitted to the Eastman School of Music. Julius Hinrich, Eastman's finest voice teacher, worked with Jim from 1963 to 1967 when he received the master's music degree in performance and literature.

During his stay at Eastman, James enjoyed a remarkably diverse experience in performance. He was Colonel Pickens in "My Fair Lady," Sid in "Albert Herring," Beverly Sills' uncle in "Merry

Mount", the Narrator in several children's pieces with the Rochester Philharmonic, and a regular recitalist in the Eastman graduate program.

Armed with a good education and great determination, James Poulhott went to New York in the fall of 1967. Auditions and more auditions are usually the requirement for jobs in Fun City, but Jim was fortunate in being accepted as the baritone soloist with the What? Lo Singers, a professional touring choir. Two seasons with the What? Lo Singers allowed Jim to perform as Figaro in a synopsis of Gershwin's famous opera which played throughout the country. His second season the What? Lo Singers presented the TV special "The Birth of a Chorus".

James joined the Turnau Opera Players in 1969. Since that time he has been enjoyed in over a dozen roles, having been heard in "Cosi Fan Tutti", "Eldorado", "La Boheme", "Susanna", "Madame Butterfly", "Don Pasquale", "Brigandino", and others.

As a free lance artist, James has acted in several off-Broadway plays, sung in oratorio both in and out of New York City, and appeared at Lincoln Center in "An Evening of Celebrating Poetry." In April he will sing three performances of "The Barber of Seville" in Tucson, Arizona.

When James Poulhott performs he performs well. There is in that young man, a built-in standard of singing and acting that has made him shun mediocrity. Over the years there may have been singers and actors at Lycoming who possessed slightly greater natural ability. But no graduate of our College has worked harder to use all of the talent he possesses.

## CAMPUS NOTES

How do you win '58? Who predicted and directed how to do it? The answer is: RMA. As a special study in the Psychology of the State, the book on Psychology, March 21st. The highly acclaimed biography of Eisenhower and Eisenhower it was the focal point of a study by the RMA made to the campus. He had a full schedule, participating with various clubs, groups and individuals, they reported that he, in after the movie, took for an article in the June magazine cover of the *Livingston*.

WALTER IV. A. ATWOOD, a student at Lycoming College on a field trip going on show at 10:30 pm on Tuesday, March 18th. Col. IV. A. Cable's high school does not pick up W. I. IV. A. received the program by special arrangement of the club. It begins with a job illustration and continues on the college by President Harold H. Butson, February 15th. W. I. IV. A. John Riley with Dr. Hudson Dr. James R. Jackson of the college and William L. Baker Assistant business manager and director of financial aid, were interviewed with students by the *Livingston*. Since the direction of Professor Walter G. McIVER.

DAVID HANDEL, 74 and ROBERT ZIMMERMAN, 74 have been selected to participate in the academic exchange program with the Polytechnic of Bucharest. The exchange program is for the 1972-73 academic year. The will attend a semester of work in Bucharest and then the summer at the College of Agriculture in Germany, before they begin classes at Gottingen in October.

FACULTY RESEARCH ASSISTANTS for the summer of 1972 have been accepted by BROOKLYN ASSISTANT professor and chairman of the department of biology, MORRIS A. FELDMAN, professor and chairman of the department of physics, and DAVID A. HARTZ, assistant professor of religion.

FACULTY GRADUATE SCHOOL GRANTS AND AWARDS for 1972-73 are: ANITA INVA R. ANSOFT, assistant professor of sociology; LINDA A. DENOUE, assistant professor of Spanish; BURKHARD W. FELDMAN, assistant professor of mathematics; WESLEY H. GRANE, assistant professor of biology; KENNETH R. SAUMANN, instructor in mathematics; and ROBERT F. MALMSTEAD, assistant professor of business administration.

SABBATICAL LEAVES for the 1973 spring semester have been granted to three faculty members. RICHARD

W. LITTLE is assistant professor of mathematics; LUDWIG G. LEWIS, professor of religion; and JOHN A. RUSSELL, professor of chemistry.

THE PENNSYLVANIA SOCIETY OF CHAIRMAN OF THE SOCIETY OF PHYSICS STUDENTS had students and physics teachers from educational institutions throughout Pennsylvania participating in the group's spring meeting held by the Lycoming physics department and the local chapter of FOCUS. MICHAEL KENNEDY '73 president, Dr. ERIC W. MUELLER, professor of physics at The Pennsylvania State University, was the main speaker. Sessions included a college physics bowl tournament, films, student papers, committee meetings, and a business meeting.

MORRIS A. FELDMAN, professor of physics, gave the principal address at the 14th National Symposium of the Middle Atlantic College Chapter of Sigma Xi Sigma Xi local physics society at Allentown, Pa. discussed a research project being conducted by the physics staff and students on the production of metastable atoms and molecules by electron impact. The project has been partially supported for three years by an undergraduate research grant of the National Science Foundation.

Mrs. JAMES W. MADSEN, assistant professor of English, attended the three day International Symposium on Communication Technology: Impact and Policy held at the University of Pennsylvania, Annenberg School of Communications which encompasses the meeting with the Communications Workers of America (AFL-CIO). Forty-two authorities from the U.S., Canada, Chile, France, England, Great Britain, Israel, the Soviet Union, and Switzerland were participants to share to discuss some of the 450 invited papers.

MICHAEL A. MEEK, professor of anthropology, has written a new text, "Evolutionary Anthropology: Evolutionary Biology and the Two- of his former students at Pennsylvania State University, University of Pennsylvania State, Arnold J. Gott and Clifford Smith, III who is Assistant State Archaeologist.

ROBERT D. SHULTZ, assistant professor and chairman of the department, has received an achievement award in 1970 for his sculpture titled "Factional Participation Number 24" exhibited recently at the Appalachians in Carlisle. The sculpture is "Biological Show" in Carlisle, West Virginia. Roger is having a one-man show of his sculpture during April at the Lycoming County Historical Museum as part of the Williamsport Area Art Council's Arts Festival.

JAMES GANNON, a football standout at Williamsport High School and the University of Maryland, has been named to the coaching staff. Gannon, whose sports club is to be assigned later, will assist his brother, Frank, who is head of Build Whitehall, as Lycoming's head coach at the end of the 1971 season. Jim is a member of the faculty at South Williamsport High School, a post he will retain. His previous coaching experience includes two years as head coach at Union Hill High School, Oxon Hill, Maryland, and backfield coach at Jesse's Shores, Seaman High School.

Under the coaching of Tom Yarnag at Williamsport High School, he started as a running back. His achievements earned him numerous all conference all-state, Big 33, and High School All-America recognition before he graduated in 1959. He then enrolled at the University of Maryland and played there over his during the tenure of Coach Tom Nugent of the graduated from Maryland in 1964.

THE MIDWEST MODEL UNITED NATIONS CONVENTION held in St. Louis in early March had five Lycoming College delegates, national delegates, Club members present. The students participating Roland W. Pace and HELEN BOGINSKI, GAIL GUILBERT, BOB HOWARD, and KES JENSEN. About 600 students from 100 colleges attended.

## MAILBAG

To The Editor

I don't think that I will get some flack about Dr. Albert J. Faulder. Please know that this is not alien who is really moved by the account and is appreciative of the fact you were willing to take when you include the article in the January issue.

There are days when being a member of the establishment or in higher education is a hummer. Thanks to you and especially to Bill Albert, this was not one of the.

I'm grateful for his writing. I hope that we will contribute input to Lycoming when we get to know each other.

Cordially

HARRY J. CANON, 52 Interim Assistant Dean, Student Affairs and Student Development Services, The University of Nebraska — Lincoln, Nebraska

# SPORTS REVIEW

By BRUCE L. SWANGER

Spring sports at Lycoming, normally shorter than the fall or winter programs, will be reduced to a greater degree than ever this year. And that isn't taking into account the vagaries of the weather, a factor that often curtails the program even more.

With Lycoming in the first year of the new 4-4-1 calendar, the regular spring term ends April 25. And the first games were held April 5, giving the teams only a little more than three weeks to complete their schedules before the end of the semester. However, most players have agreed to remain after the close of school to participate in contests that had been scheduled for early May before the new calendar was adopted.

The three teams will also participate in the Middle Atlantic Conference championship events the first week in May. When basketball was eliminated last season as an economy measure, the spring program was reduced to three sports: tennis, golf, and track.

Tennis Coach Nels Phillips has five lettermen from the team that last year finished with a 7-3-1 record. The Warrior netters have an eleven-match schedule this year plus the MAC championships at Moravian.

Coach Seth Keller welcomed four lettermen back to the track and field squad that last year won five and lost three. The track boys have six meets scheduled, with three of them triangular events. They also will compete in the MAC championships at Swarthmore.

Dave Binsw, golf coach, had two lettermen return to help the nucleus for a six-man team that is scheduled to play six matches, including six triangular events.

## WINTER SPORTS SUMMARY

Despite some outstanding individual performances by players during the winter sports program that ended in early March, none of the three teams turned in a winning season.

### WRESTLING

The wrestlers of Coach Build Whitehill came the closest to recording an overall 7-7 mark to finish at 5-9 for the second consecutive year. Among the top performers were Captain Bruce Whitaker, a senior from Virginia Beach, Virginia, who compiled a 5-1-1 record wrestling at 138 lbs. He made the top showing among Warrior grapplers competing in the MAC championship tournament with a second-place finish. Other outstanding records include 10-2-1 by Dave Webster of Altoona at 115-122 lbs. Wayne Goodnow, of Leavittown at 190, and 7-4-3 by Joe Baxter of Sayre. In all weight. All three will return next year.

### BASKETBALL

The sophomore dominated basketball team coached by Dutch Burch failed by four points to complete a winning season. An extra point in regulation time in each of the two games lost in overtime—East Stroudsburg and West Virginia Tech—plus two points in an 85-84 loss to Susquehanna would have given the Warriors a respectable 12-10 record instead of 9-13.

Rich Henninger, the sophomore co-captain from South Williamsport, captured the MAC scoring championship and was fourth in the nation in scoring among college players with a 26.7 average. He was named to the MAC All-Star team, was voted the outstanding player in the Bi-racial Rotary Invitational Tournament, and was chosen for the All-Star team in the Washington and Lee Tournament. Henninger scored 560 points during the year on the way to joining the exclusive Lycoming College 1,000 Career Point Club, the eighth player in Warrior history to gain that distinction. He now has a career total of 1,063.

Tom Smith, another sophomore, was runner-up to Henninger in scoring with 368 points on a 16.7 average. He is 5' 7" forward from West Hazleton was also given honorable mention on the MAC All-Stars. The two sophomores have been named co-captains of the Warrior squad for 1972-73. Mike Herman, of Canton, will be the only player lost by graduation.

### SWIMMING

Co-Captains Steve Muthler, of Jersey Shore, and Steve Marshall of Concord Station, New Jersey, both had fine years for the Warrior swimmers coached by Mort Bauff. Despite the efforts of the two co-captains, the mermen were able to win only two contests while losing eight. Both Muthler and Marshall will be back next year.

# LYCOMING SCHOLAR PROGRAM EXPERIMENTS

The Lycoming Scholar Program was originally set up in 1966, its original "charter" from the faculty said that it was designed for students who were intellectually able to work in special breadth or depth in some area. Implementation of the program was in the hands of the "Lycoming Scholar Council".

The Council, made up of four Scholars—elected by their peers—four or five faculty, and the Dean of the College, is now in the process of reviewing our progress over those six years, and making new decisions about the goals and methods of the program.

Most Scholars have come into the program through a selection process which selects and interviews them in their senior year of high school. If they have met our criteria of board scores and class rank, they have been invited to campus for faculty interviews and student evaluation. Each year from twelve to twenty-five Scholars come in this way as freshmen. The other method of entry is to apply while a student at Lycoming. The prerequisite is a 3.25 average for each of two preceding terms. Letters of recommendation from two faculty members, a letter of application, and an interview by someone on the Scholar Council are required. Several students come in each year by this route; this year more than ever.

By and large, Scholars stay in the program, but some leave the college for various reasons, and some are dropped by the Council because of poor performance or obvious lack of interest. At last count our books showed sixty-five Scholars, with several more applications pending.

## ALUMNI NOMINEES

The following alumni have been nominated by the Alumni Executive Board for one-year terms as officers of the Lycoming College Alumni Association:  
President—Daniel Fultz '57  
Vice President—Jack Parsons '62  
Corresponding Secretary—Charlotte Chubb Glink '59  
Recording Secretary—Ann Bonnett Zsoldt '63  
Treasurer—Eugene Landon '57

The following alumni have been nominated for three-year terms as members of the Executive Board of the Alumni Association:

James Hoffman '63 Marshall Sanders '36  
William Worshaefer '70 Martha Hickerson Kirk '62  
Deamus Kitzman '59 Lucinda Earle Hulshof '65  
John Joe '59

The annual business meeting of the Alumni Association, with election of officers and board members will be held at 12:45 p. m. May 6th following the alumni luncheon on campus. In accordance with our constitution, all of the above nominees have agreed to serve if elected.

Richard B. Henninger, a sophomore, from South Williamsport receives a plaque commemorating the 1000 points Rich has scored in his two years at Lycoming from Dr. R. Andrea. Lady, assistant to the president.

## LYCOMING

College Magazine

April 1972 Volume 25, Number 4

LYCOMING is published monthly (except July and August) by Lycoming College, Second Class postage paid at Williamsport, Pennsylvania 17701.

### Staff

Editor—JOSEPH P. LAVER, JR.  
Associate Editor—DALE V. BOWEN '59  
Sports Editor—BRUCE L. SWANGER

Many colleges and universities have "Honors Programs" for their most capable students, and our Lycoming Scholar Program fits what passes for Honors Programs across the country. I have studied many such programs, and the only common feature seems to be that certain students are designated as "Honors Students", their responsibilities and privileges fall into no common pattern. But while some Honors Programs put their Honors Students on a completely separate "track", Scholars at Lycoming are generally working in the course offerings open to every other student.

Perhaps the best way to describe our program is to mention a few things we have done in the past.

Freshman Scholars have taken one or two special seminars for credit. One advantage of such seminars is that they provide opportunities for Scholars to get acquainted with each other. These seminars are usually interdisciplinary in nature. An example of this was the seminar on "Images of Man", which combined material from literature, psychology, and religion.

Semior Scholars have taken "presented" might be a better word, a non-credit seminar in which they reported on some project they had recently undertaken. These reports have usually been combined with a leisurely meal at a faculty home or local restaurant, thus adding a pleasant social dimension. One such report last year was given by a Scholar who had majored in history; she discussed "Attempts at Federation in the American Colonies Before 1776". Formidable, perhaps, but it resulted in a great deal of discussion as the Scholars and teachers present went at the problem from their own perspectives.

Lycoming Scholars have undertaken specialized programs of many sorts, both on the campus, and away. They have engaged in specialized research at the Institute for Behavioral Research in Bethesda, Maryland, at the University of Edinburgh, and in the United Nations Semester Program of Drew University. Currently, some of our Scholars are studying in England, Germany, and Spain.

Much of the Scholar's course work taken at the college is in the normal course offerings of the college, but even then they frequently have opportunities to substitute special papers and reports more in line with their interests and abilities. Often as Scholars they find it easier to arrange Studies and Honors courses.

Last April about thirty Scholars and faculty spent a discussion-weekend in New York. We saw plays, visited museums and zoos, and generally had a good time. The college and private, some of the expenses.

The Scholar program, because of its small size and organizational structure, is much freer to experiment (emotionally than is the college as a whole). Innovations can be tried here at little cost, and tolerated if they fail. On the other hand, successful ones may find their way into the general curriculum. An example is Interdisciplinary Studies which were first seriously tried with Lycoming Scholars. Several examples will illustrate what we are trying now.

While the college as a whole is moving away from a strong advisory system to a voluntary one and leaning on distribution requirements to furnish the proper unity, the Scholar Council is moving to a strong advisory system, allowing each Scholar and his advisor to solve the problems of breadth and depth in education. For example, it may be decided that a student with considerable talent and experience in music need not take any courses in the area of Art. Each Scholar program will be reviewed periodically by the Council.

The Council is experimenting with allowing Scholars a very large voice in directing their own education. It may turn out that students will respond to greater responsibility for their own educational destiny.

We are now inviting present Scholars to a much greater degree in selecting new members of the program. Such student evaluations may turn out to have more predictive value than opinions of us elders. If so, the school might wish to modify its college admission policies.

# CLASS news

Edited by **DALE V. BOWER '59**

have one son, age eighteen months.

1966

1966

**TOM and DOTTIE (KUNTZ) MILNER** announced the birth of a son, **Scott Thomas**, on February 9, 1972. Scott joins a sister, Julie, age three. Tom and Dottie are living in Towson, Maryland, where Tom is a senior marketing analyst for Humble Oil.

**TOM DECKER** was promoted from assistant treasurer to assistant vice president of Central Counties Bank. Tom and his wife, Rose, live in State College. Central Counties Bank has eight offices in Centre and Clinton Counties.

1965

**SUSAN CHRISTIE** and Stanley Dobrinsky were married February 12th in the Union Village United Methodist Church. Susan is employed by Somerset County, N. J., as personnel assistant.

**JOHN and CONNIE (HERZ) FINKLER** brought us up to date on what they have been doing. John completed his dissertation and graduated with a doctorate from the University of Tennessee in December. For the past two years, he has been director of pupil personnel services for the Chesterfield County School System. He coordinates eight different departments headed by eight supervisors. This includes special education (trainable, retarded, hearing impaired, etc.) vocational rehabilitation, guidance, visiting teacher (social worker), psychologist, nurses, etc. In spite of the time needed to care for their three sons, Connie has completed all her thesis for a master's degree in art education from the University of Tennessee.

**LUCY (DERSHAM) FESLER** is residing in Keflavik, Iceland, while her husband does a tour of duty with the Navy there.

**DAVID and WINI (WATSON) SCHULTZ** recently moved from Oceanport, N. J., to Devlestown, Pa., following Dave's promotion with Shell Oil Company. In Oceanport, they welcomed Jennifer Lynn to join five year old Peter.

**MARCI (MACK) and AL (BISCHOP)** became the adoptive parents of two little girls on February 26, 1971. Audrey Ruth was born February 16, 1965 and Julie Anne on July 14, 1968. The adoption was legalized January 17, 1972.

**MARSHALL and HONEY (BROWN '64) MIRKIN** welcomed a son, Matthew Harris, on December 30, 1971. He joins two sisters: Lissa and Toby.

1964

**BILL CUFERMUTH** is the coach of Cox High School of Virginia Beach, Va., which won the Virginia State Championship in wrestling. He also had two state championships in his team.

**ANNE PITTINGER** and Lewis Buchler were married January 29th in the Towson United Methodist Church. Twanna, Md., Anne and Lew are living in Greenbelt, Md. Anne had been the very active leader of our alumni work in the Baltimore Area.

1962

10 YEAR REUNION - MAY 6, 1972

1961

**JACK CAHILL** is personnel director and system coordinator at the Willitsport Hospital. Jack and his wife, Fylene, have two children.

1960

**JOHN R. COX** recently became a Certified Public Accountant. He is living in New Cumberland, Pa.

**FLOYD A. POLIER**, business manager and controller of Juniata College, will now handle all business affairs of the college. He has been responsible for all the current business operations of the college including budgeting, accounting, purchasing, non-academic personnel, and related functions. He has now added to his portfolio responsibility for enrollment management and for operation of the physical plant including campus and buildings. Floyd is married to the former **BARBARA THOMAS**.

**JAMES BASSETT** has returned to Williamsport as one of the key officials in the new, state-mayor form of city government. Jim is the director of finance and personnel. Jim had been with the Philadelphia County Court System.

**KEN POLICYN** has two articles appearing this year in *Educational Technology*. They are part of a four part series he is writing for the magazine. In addition, his book *Broadcast Satellites and Other Educational Technology - Current Status and Related Issues*, is being considered for publication. Ken has just spent a month in Brazil reviewing their current educational system and their progress in preparing for the satellite experiment. Ken says "the communication satellite looms as probably one of the most significant by-products of America's space efforts. Ken works out of the Tallahassee Office of the Academy for Educational Development, Inc. He was on campus for the Lycoming-Albright football game last fall. We hope to devote a full article in the alumni magazine to his work soon. Ken is married to the former **DOROTHY HUMMEL '59**.

**MARIE WHITE BELL** has been working as an associate chematherapist for the past eleven years. She is a third year evening student at the Seton Hall University School of Law. Marie's husband, Conrad, is a physician and they live in East Brunswick, N. J.

**JACKIE LOU SNYDER NOWAK** has been named by the Cumberland County Commissioner to the newly created post of county coordinator for the aging. Her goal for approximately 13,000 county residents over 65 concerns the things they want for themselves - custodial care when it's needed, multi-purpose center, information, counseling and referral service, working with voluntary agencies such as Home Care Services, Meals on Wheels and the Visiting Nurse Association, protective service and telephone insurance. Jackie and Andy have two children and live near Williams Grove Park.

1957

15 YEAR REUNION - MAY 6, 1972

**BARBARA SHICK** is the chief laboratory technologist at New Lebanon Hospital in Newburgh, Georgia. Barbara is presently the president of the Georgia Society of Medical Technologists.

1955

**JOHN W. KNAUBER** has been named chief of the division of occupational health in the Pennsylvania Department of Environmental Resources. He works out of the central office in Harrisburg.

1953

**RICHARD BRUNNER** and Gillian Betty were named March 4th in Our Church of Our Savior, Mountoursville. **ELMER BOONS '50** is best man. Dick is Personnel Supervisor for CTE Silvania, Inc., Williamsport.

1952

20 YEAR REUNION - MAY 6, 1972

1951

**FRED W. NORMAN**, Associate Minister, First United Methodist Church, Springfield, Minn., grows pecumers to Springfield, Melvin '68 and **HARRIET (HOOVER) '69** ELEMING.

he was officer manager and chief accounting officer. The director of finance and personnel for the City of Williamsport is **JAMES BASSETT '60**.

1950

**PAUL F. O'BRIEN** has been named Director of the Bureau of Administrative Services of the Pennsylvania Fish Commission. Paul's wife is the former **MARY ANN CRAWLEY '52**.

1947

25 YEAR REUNION - MAY 6, 1972

1942

1932

40 YEAR REUNION - MAY 6, 1972

**HARRY E. REITER** has been elected president of Teachers Protective Mutual Life Insurance Company. He was with the company for twenty years and its vice-president since 1967. Harry has also just completed ten years on the Great Valley School Board of Chester County.

1927

45 YEAR REUNION - May 6, 1972

1922

50 YEAR REUNION - MAY 6, 1972

1920

**FLORENCE PAUS TAYLOR** and **GEORGIA KAUFMAN SELSAM** recently spent a day together in Sarasota, Florida, at Florence's new home. They had not seen each other since September, 1920, after their summer working together at the old Greenwood Inn in Erie, Pa. Florence's husband also worked there that summer, so it was a happy day of reminiscing and looking at pictures of the Seminary and the Inn. Florence and Georgia each have growing daughters and grandchildren now in college.

1917

55 YEAR REUNION - MAY 6, 1972

1912

60 YEAR REUNION - MAY 6, 1972

## NECROLOGY

**1956 - EDWARD G. DOUGLASS** died February 6th. He was manager of the Williamsport Heating Aid Company. He was graduated into the Methodist ministry in 1925 and served until retirement in 1959. His only survivors are several nieces and nephews.

**1937 - JEAN E. SLACK** died February 29th in Harrisburg. She was an employee of Harrisburg Hospital, active in the American Association of University Women and a past president of the Bucknell Alumna Association of Harrisburg. She is survived by her mother, with whom she lived, and a sister.

**1925 - ALVA** was returned notifying us of the death of **PAULINE MOYER BOYD**. No other details were available.

**1922 - LAWRENCE B. BARTON** died March 18th in the Tyrone, Pa. Hospital. He was ordained into the Methodist ministry in 1925 and served until retirement in 1959. His only survivors are several nieces and nephews.

## ALUMNI HELP RECRUIT STUDENTS

Over 100 Alumni are involved in a program to assist our admissions office in recruiting students for LYcoming. Frank Kamus, admissions director and D. Dale Bower, alumni director, work closely in alerting alums of prospective students in their area who have been accepted by the college. The alums then makes a call on the prospect to talk with him about the advantages of attending LYcoming. He also gives first-hand answers to the prospects questions or he contacts the college for any clarifications. Alumni have been very helpful as they share their experiences with prospective students. Their call at the right time has helped a number of prospects decide on LYcoming. The college appreciates the continued help of all alumni as they direct students to their alma mater. The admissions and alumni offices welcome inquiries at any time.

1971

FIRST REUNION - MAY 6, 1972

**LINDA MIECKBACH** and David Desmond were married January 21st. Linda teaches in the Williamsport Area School District while Dave completes his senior year at Juniata College.

**DIANE (WEEKS) and CHRIS '72 RANNEY** create a family from their home in Hardsville, Mass. Diane is enjoying her latest role as a mother of 11 month old Alexander. She also does substitute teaching and is looking over one of the professional theatres in Cape Cod. Chris works in a bank teller and will be taking courses toward his business administration degree.

**LLOYD OSOUCO** and Susan Scott were married November 13, 1971, in Syracuse, N. Y. **ELMER JONES '72** was best man. Lloyd is employed by the Chester County Health Department at Gettysburg.

**DANNY MILLER** has a busy schedule working as a counselor at the Plainfield, N. J., School District and attending Lehigh University's graduate school one day a week. He is working on a master's degree in education.

1970

**SUSAN, STEWART** and William H. Evans of Orlan, Indiana, were married July 5, 1971, at Sue's home in White House Station, N. J. Sue teaches 6th grade at Lehigh Valley Elementary School and her husband teaches and coaches football at Scotch Plains - Hanover High School. They are living in Princeton, N. J.

**ARTHUR H. STEEL, II**, presented his master's argument in the Pennsylvania State University music building in University Park, Pa. Zack is also a graduate teaching assistant in the Penn State music department and assistant conductor of the university's glee club. He is presenting the recital in the Lycoming Alumni Series on April 16th at 7:30 P. M. in First United Methodist Church, Williamsport.

**EMERY SCOTT**, who is in a first assistant position of administration at Lycoming since graduation, recently applied for a position as Personnel Assistant at CITT Systems, Inc. in Mountersville. Zack and **SANDIE (MYER)** live in Mountersville. They live in south Williamsport.

**STEPHEN THOMPSON** received his M.A. in English on September 4, 1971, in Baltimore. He is now in the Department of Sociology and Anthropology of the University of Virginia working toward a master's degree in anthropology.

1969

**JOHN and KANISY (JOHN BIL) WELCH** were married in their home in Williamsport, Pa. on October 14, 1971. They are living in Morris, N. J.

1968

**WILLIAM J. WOODS** has been promoted to a position in the office of Southern Bell Telephone and Telegraph. Bill and his wife, June, live in New Cumberland, Pa.

1967

15 YEAR REUNION - MAY 6, 1972

**A. J. CRICK** has been named coordinator of the Intermediate Unit #17 Title VI program of Bradford, Lycoming, Sullivan and Tioga Counties. In the BLAST Title VI program, Al will institute an intensive census for pre-school handicapped children. Al had been in assistant director of admissions at Lycoming College.

**PAUL E. ROBINSON** brought us up to date in a recent letter. He married the former Eleanor Baul of Elmira, N. Y., on July 1, 1967, and graduated from the Theological Seminary in June of 1971. He is presently serving a German-speaking United Methodist Church in Basel, Switzerland. He will join the Western N. Y. Conference next year. The Robinsons

# LYCOMING

COLLEGE REPORT April 1972 Volume 25 Number 4 May Term and Summer Session Supplement

## THERE'S A NEW WORLD COMING

### MAY 5, 1972

**COMMUNITY DEVELOPMENT**—The Community Development Center is planning a series of workshops for faculty and students interested in community development work. The workshops will be held on the following dates: May 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31.

**SPANISH**—The Spanish Department is offering a new course in Spanish for students who have completed the first semester of Spanish. The course is designed to provide students with a practical knowledge of Spanish and to help them develop their speaking and listening skills.

**INTERNATIONAL STUDENT SOCIETY**—The International Student Society is planning a series of social events for the May Term. The events include a dance, a picnic, and a movie. The society is also planning to sponsor a number of international students from other parts of the world.

**ADVISORY BOARD**—The Advisory Board is planning to meet on May 15, 1972. The meeting will be held in the Board Room and will be attended by the President, Vice President, and members of the Advisory Board.

**ANTHROPOLOGY**—The Anthropology Department is offering a new course called "The New Society." This course will be a S.S. 7-2-1. The course will have students use anthropological field methods to analyze the cultural community of Espanola, New Mexico.

On the other hand, the Communist Party of the United States of America (CPUSA) is planning to hold a convention in Moscow in 1973. The convention will be held in the city of Moscow and will be attended by members of the CPUSA from all over the world.

The May Term of 1972 will be a very busy term for the college. There will be a number of important events and activities planned for the term. The college is looking forward to a successful term and to the return of our students and faculty.

The college is also planning to sponsor a number of international students from other parts of the world. These students will be attending the college for the May Term and will be receiving financial aid from the college.

The college is also planning to sponsor a number of international students from other parts of the world. These students will be attending the college for the May Term and will be receiving financial aid from the college.

The college is also planning to sponsor a number of international students from other parts of the world. These students will be attending the college for the May Term and will be receiving financial aid from the college.

### A BARGAIN IN EDUCATION

A new course in education is being offered by the college. This course is designed to provide students with a practical knowledge of education and to help them develop their teaching skills.

The course is being offered for the first time this year and is a great opportunity for students who are interested in education. The course is being taught by a highly qualified and experienced teacher.

The course is being offered for a limited time and is a great bargain. The price is very low and the quality is very high. Don't miss out on this opportunity.

The college is also planning to sponsor a number of international students from other parts of the world. These students will be attending the college for the May Term and will be receiving financial aid from the college.

The college is also planning to sponsor a number of international students from other parts of the world. These students will be attending the college for the May Term and will be receiving financial aid from the college.

THE MAY TERM—  
TRY IT.  
YOU'LL LIKE IT.

# 1972 MAY TERM AND SUMMER SESSION

## COURSES FOR MAY TERM 1972

### ACCOUNTING 60

Course in the Accounting Principles Based of the American Institute of Certified Public Accountants, Richmond, 9 a.m.

### ACCOUNTING 80

Independent Study in Accounting  
 Pischonell, Time arranged.

### ART 61 - Pottery

Design problem including wheel-throwing in glaze building to finished, decorative techniques, clay and glaze formulation, building of primitive kiln, and firing procedure. Pottery, stoneware, and earthenware.  
 Amigh, Time 9 a.m. Cost of Materials \$15.00

### APT 62 - Color Theory

Study of physiological and psychological aspects of color.  
 Wills, Time 9 a.m. Cost of Materials \$30.00

### PT 63 - Introduction to Photography

The Art of Photography is a peculiar blend of technical skill and imagination, and the art of it. To be successful there is a subtle relationship between the two, primarily the first of the course is to develop these skill and methods.  
 Will, Time 9 a.m. Cost of Material, 35mm camera and \$30.00

### HEALTH 340 - Entomology

The field is a practical and introductory study on the more general of insects, their life cycle, and their economic and health importance.  
 Wagner, Time 9 a.m. Lab Fee.

### BIO 261 60 - Seminar in Bioethics

An interdisciplinary seminar on the ethics of biological research. Topics of laboratory development, cloning, and field traps. Discussion of ethical implications of such research, abortion, artificial insemination, blood transfusion, and organ transplantation. Philosophical and theological aspects of these ethical implications. Grades: Enrollment limit 20.

### PH 101 61 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 62 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 63 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 64 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 65 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### BUSINESS 61 - The Profits of World of Business

To learn the strategies for finding such goals and problems during the first years in business. The changing face of the business world, criteria for selection of an employer and a specific job, career paths open, promotional job expansion, realities of work and pitfalls to avoid, etc.  
 Hollenback and Devlin, Time Arranged.

### BUSINESS 62 - Business Abroad

Offer student an opportunity to study current management theory and practice abroad by means of a European tour.  
 Range, Time Arranged. Cost Approximately \$2000.

### BUSINESS 63 - Model Building for Decision-Making Purpose

Allows student to explore specific quantitative business decision models commonly employed in sophisticated business decision making. Topics are: Linear Programming, Inventory Programming, Linear Assignment, Quantitative Management, PERT, CPM, Portfolio Theory, Inventory Control Models.  
 Malsbain, Time Arranged.

### CHEMISTRY 1 - General Chemistry

An introduction to the fundamental principles of chemistry including stoichiometry, atomic and molecular structure and properties, the state of matter, solution kinetics, equilibrium and non-equilibrium.  
 Turner, Time 9 a.m. Lab Fee.

### CHEMISTRY 60 - Biophysical Chemistry

A one-semester course designed for the chemistry major or biochemist, a background in physical chemistry for higher professional training. The course builds background in thermodynamics, kinetics, and properties of solutions, and applies the concepts of equilibrium, electrostatics, and chemical kinetics.  
 Pappas, Time 9 a.m. Lab Fee.

### CHEMISTRY 61 - Clinical Analytical

This course is designed for non-chemistry major primarily needed in biological, chemical, and environmental analytical chemistry. Topics include analytical chemistry, general method and laboratory, and their application to various analytical problems.  
 Turner, Time 9 a.m. Lab Fee.

### CHEMISTRY 62 - Physical Chemistry

This course is designed for the chemistry major or biochemist, a background in physical chemistry for higher professional training. The course builds background in thermodynamics, kinetics, and properties of solutions, and applies the concepts of equilibrium, electrostatics, and chemical kinetics.  
 Pappas, Time 9 a.m. Lab Fee.

### CHEMISTRY 63 - Physical Chemistry

This course is designed for the chemistry major or biochemist, a background in physical chemistry for higher professional training. The course builds background in thermodynamics, kinetics, and properties of solutions, and applies the concepts of equilibrium, electrostatics, and chemical kinetics.  
 Pappas, Time 9 a.m. Lab Fee.

### CHEMISTRY 64 - Physical Chemistry

This course is designed for the chemistry major or biochemist, a background in physical chemistry for higher professional training. The course builds background in thermodynamics, kinetics, and properties of solutions, and applies the concepts of equilibrium, electrostatics, and chemical kinetics.  
 Pappas, Time 9 a.m. Lab Fee.

### CHEMISTRY 65 - Physical Chemistry

This course is designed for the chemistry major or biochemist, a background in physical chemistry for higher professional training. The course builds background in thermodynamics, kinetics, and properties of solutions, and applies the concepts of equilibrium, electrostatics, and chemical kinetics.  
 Pappas, Time 9 a.m. Lab Fee.

### EDUCATION 63 - Teaching of Reading Skills

The emphasis is on secondary reading as a developmental skill area, and the approach is a non-technical presentation of basic skills that can be applied by all teachers to improve reading ability. The course will include detailed and specific examples of how to teach reading skills and actual practice in teaching such skills. Students will have experience in the public schools in their individual content area.

### ENGLISH 60 - The Noble Savage

An experiment in basic survival, designed to enable the student to grasp the concept of the Savage in literature. Includes a two-week hike on the Appalachian Trail. Instructor to be announced. Estimated cost \$100.

### ENGLISH 62 - Speleology (Cave Geology)

This course will introduce students to the fundamentals of cave exploration and study. Through field work in caves in West Virginia, the students will have the opportunity to study cave science, cave exploration, and human behavior in caves. (Possibility of cross-credit in Biology, Psychology, English, and Sociology.) Bayer and Durr. Cost estimate at \$100.

### HISTORY 61 - History of Utopias in America

A study of utopia and utopian thinking in the United States. The course reviews some utopian literature, including the work of John Humphrey Noyes, Robert Owen, Thomas Edward Bellamy, and B.F. Skinner. Visits to restored sites, like those of the Oneida Community and the Shakers, and to contemporary communities in the Fingerhills, the Trappist, and the New Life Centers.  
 Piper, Time 9 a.m. Expenses Minimal travel.

### RUSSIAN 60 - Cultural Tour of the U.S.S.R.

Under the arrangement with the Bureau of International Youth Tourism of the USSR, the upcoming group will visit Moscow, Leningrad, Kiev, and possibly Odessa and the Black Sea. The students will have opportunity to meet informally with Soviet youth, attend theater performances, community in Russia, go on excursion and sight seeing tour of Hermitage, Winter Palace, Summer Palace, Moscow State University, Kremlin, Lenin Mausoleum, Tretyakov gallery, etc.  
 Winston, Approximate cost \$600-\$650.  
 For itinerary and detail, see Prof. L. Winston.

### SYNTHETICS 51 - Theory of Numbers

Introduction to number theory, and topics in other. A study of integers and their properties. Topics are: divisibility, prime numbers, congruences, Diophantine Equations, quadratic residues. Prerequisite: Math 20 or equivalent.  
 S. K. Stein, Time 9 a.m.

### SYNTHETICS 60 - Elementary Geometry

Introduction to elementary geometry. Topics include: Euclidean geometry, congruence, similarity, and area. Prerequisite: Math 20 or equivalent.  
 S. K. Stein, Time 9 a.m. Cost 1.00-3.00

### SYNTHETICS 61 - Elementary Geometry

Introduction to elementary geometry. Topics include: Euclidean geometry, congruence, similarity, and area. Prerequisite: Math 20 or equivalent.  
 S. K. Stein, Time 9 a.m.

### PH 101 61 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 62 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

### PH 101 63 - Introduction to Philosophy and Logic

Introduction to the study of philosophy and logic. Topics include the history of philosophy, the philosophy of language, the philosophy of mind, the philosophy of science, and the philosophy of religion. Grades: Enrollment limit 20.

# OFFER NEW ADVENTURES IN LEARNING!

biology, microbiology, and plants. Emphasis on conceptual relationships in mathematics. Physics 2 plus Physics 4 or 5 or college natural science distribution requirement. Prerequisite: Math 1 or equivalent. Course will be offered in Summer Session. Sequence to be completed in 1973.

Physics 5 will be offered in summer term in 1973. Sequence of courses should include Laboratory.

PHYSICS 100 - Laboratory - Relationships  
 Examination of the force-duration and velocity-time relationships in the United States. Emphasis on the relationship of all these variables to the AFM-CIC program of human aviation. Trip to Washington, D.C. Arrangements to be made prior to Washington.

PHYSICS 350 - Educational Psychology

Students obtain a conceptual grasp of the teaching-learning process. Areas included only include educational objectives and their characteristics, concept formation, learning styles and their effects, student motivation, and retention on learning. Prerequisite: Education 100.

PHYSICS 375 - Statistics For the Behavioral Sciences

A course in the use of descriptive and inferential statistics. Includes a brief application to the human sciences. Prerequisite: Math 5 or the Psychology Department minor requirement for Psychology 35 or Sociology 35. Prerequisite: Math Distribution requirement 1 or 2.

PHYSICS 600 - Human and Comparative Psychology

Students obtain a conceptual grasp of the learning process and its relationship to animal behavior and the evolution of intelligence.

PHYSICS 601 - Behavior Modification

Prerequisite: Education 100.

PHYSICS 602 - Psychology of the Individual  
 Prerequisite: Education 100.

academic problems at school. Student spends half time working directly with an elementary school child in a Williamsport school and other half planning and critiquing this activity and discussing the literature on counseling and behavior modification with the instructor and other members of seminar. Four. Time Arranged.

RELIGION 40 - Seminar in Bioethics

An interdisciplinary seminar on the ethics of biological evolution. Readings, laboratory demonstrations, and possibly field trips. Discussions will emphasize such issues as courtship, abortion, clonal reproduction, artificial insemination, and eugenics in relation to philosophical and theological ethics. 20 student limit. Hughes and Green. Time Arranged.

RELIGION 61 - Field Archeology

An introductory study of the theory and methods of archeology and their practical application in excavating a Williamsport area Indian site. Most of the time will be spent in the field working as archeologists. Two. Time Arranged. Materials Cost \$10.

RELIGION 62 - The Psychology of Religion

To help students understand insights of psychology to study and understand religious behavior. Concentration will be on religious experiences or manifestations rather than on concepts. The aim is to arrive at tentative conclusions as to what it means to be religious and what the religious functions for human development. Sixteen. Time 1 p.m. Cost \$15 for film project.

RELIGION 67 - Ethnic and Religious Provincialisms

This attempt to characterize students to take a second look at its various provincialisms of our day, primarily ethnic and religious. Class will visit various ethnic and religious groups in sites such as Philadelphia and New York - Italian, Polish and Black ethnic group and inter-minority religious groups. Rhoads. Time Arranged. Travel expenses \$40.

RELIGION 69 - Cross-Cultural Field Experiences

Students will have a cross-cultural field experience in the study of inter-cultural communities. English, Spanish,

American, and Indian) of Espanola, New Mexico. Combines sociological and anthropological field methods of community analysis. Students spend week days in the community in interview teams of two to three persons. Saturdays spent in sight-seeing in Santa Fe, Taos, Los Alamos, and various Indian reservations in upper Rio Grande Valley. McCarty. Travel cost to be arranged.

SOIOLOGY 61 - Urban Problems

A one-week field experience in urban problems in New York City, three weeks of background reading and discussion in preparation and summary on campus. The focus on a societal problem area will be decided by those interested in taking the course.

Bryant. Time 9 a.m. Expenses \$100 for trip to N.Y.

THEATRE 1 - Speech

The dynamics of oral communication. The development of elementary principles of simple oral communication through lectures, prepared assignments in speaking, and informal class exercises. Utilizes video tape sequences for 'instant feedback' to students. Falls. Time Evening hours arranged.

## COURSES FOR SUMMER TERM 1972

ANTHROPOLOGY 100 - Introduction to Cultural Anthropology

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ANTHROPOLOGY 101 - Cultural Anthropology

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ANTHROPOLOGY 102 - Primatology and Field

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ANTHROPOLOGY 103 - Primatology and Field

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ENGLISH 100 - Fiction

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ENGLISH 101 - The American Novel

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.

ENGLISH 102 - The American Novel

Students obtain a conceptual grasp of the evolution of man and the cultural differences between the various races. Prerequisite: Education 100.
